NEC

# Aspire™

**A**spire from NEC is a family of telephone systems ranging in size from four to hundreds of extensions tailored to meet the communication needs of your organization today and tomorrow.

Aspire allows you to converge your voice and data networks and enjoy the many advantages of Voice over Internet Protocol (VoIP) while enjoying the hundreds of features you've come to expect from traditional digital/analog switching. Aspire lets your organization benefit from the potential cost-saving advantages of IP even if you're not ready to migrate to 100% IP Telephony immediately. That's because Aspire gives you a choice: You can deploy traditional circuit-switched technology, VoIP or a combination, all from one system! You have the freedom to adopt VoIP when and where you need it.

Aspire's elegant sophisticated design and intelligent features delivers productivity and versatility to any work environment. With many models to choose from, each station user can enjoy customized service and high performance.
